Westermeyer Industries Expands Line of Liquid Receivers

Bluffs, Illinois—Westermeyer Industries announces expansion of its liquid receiver line to include four high pressure receivers for use with R-410A and CO₂. The high pressure receivers have a 675 psig maximum working pressure and are competitively priced.

With welded construction and powder painting for corrosion protection, Westermeyer Industries receivers are designed in accordance with ASHRAE standards. All high pressure receivers have an ODS connection and are tested with 100 percent nitrogen.

In addition to the six standard liquid receivers offered in the catalog and the four high pressure receivers, Westermeyer Industries can modify any design to meet client specifications.

To learn more about Westermeyer Industries liquid receivers, view our online catalog at www.westermeyerind.com/catalog.htm or call us at 217.754.3277.

Westermeyer Industries engineers, manufactures, and distributes high-quality components and accessories. Westermeyer Industries services include product design, prototype building, testing, and manufacturing of components for air conditioning and refrigeration industries worldwide.
